

Beyondtech PureOptics™ Dome Splice Closure

Order Code: BTSPC06B

Dome closure is a type of fiber optic splice closure that is designed to protect and organize fiber optic splices. It is made of a durable plastic material and has a dome-shaped top. The closure is typically used in aerial, underground, and duct applications. The closure provides a secure environment for the splices and protects them from moisture, dust, and other contaminants. It also allows for easy access to the

FEATURES AND BENEFITS

- Durable dome: Protects fiber optic splices from weather, impact, and UV rays.
- Secure sealing: Keeps out moisture, dust, and other contaminants with a watertight design.
- Easy access: Hinged or removable dome allows for quick inspection and maintenance.
- Versatile sizes: Accommodate various splicing needs with a range of closure sizes.

SPECIFICATIONS

Applications:

Telecommunication networks, On a utility pole, In an underground conduit, On an interior wall, In a splice box

Sealing Mechanism:

Heat Shrink Type

In Ports Capacity:

1 Oval Port

Out Ports Capacity:

3 Round Ports

Maximum Cores Capacity:

96

Protection Grade:

IP 67

Accessories:

Heat shrinkable sleeves, electrical tape, seal tape, hexagonal wrench, L wrench and desiccant.
